

# “Danube-Eastern Europe” Regional Water Forum - 2022

**Management of water and sewerage  
infrastructure in the context of  
resource reduction and depletion  
27-28.10. 2022, Bucharest \*)**

Technical-Scientific Conference

**We invite you to participate at the Technical-Scientific Conference organized by Romanian Water Association, in partnership with Polytechnic University of Bucharest and Technical University of Civil Engineering Bucharest**

The events are dedicated to all specialists from Water Sector starting with academia, consultants, designers and equipment manufacturers, water resources managers, water supply and sewerage operators and, last but not least, the general public interested in improving technical performance and management of the Sector.

## CONFERENCE TOPICS

- 1. Modern solutions to reduce water losses**
- 2. Energy is an expensive resource, with environmental impact - reducing energy consumption and production of energy from alternative sources**
- 3. Technologies and ways for recovery on by-products resulting from wastewater treatment. Sewage sludge - costs and benefits**
- 4. Urban rainfall - a resource or a stress factor?**
- 5. How close are we to circular economy? Successful solutions.**

## DEADLINES

- Launch of invitations to participate: ➤ 08.04.2022
- Receiving abstracts: ➤ 29.06.2022
- Papers acceptance: ➤ 15.07.2022
- Receipt of full paper or extended abstract: ➤ 30.09.2022

*\*) In order to give the opportunity to participate to as many representatives of the members of the Romanian Water Association and the interested specialized public (specialists in the sector, academia, students etc.), the Conference will take place online, the infrastructure and logistics being provided by the Romanian Water Association and does not involve participation costs.*
